

HOME HEATING & AIR CONDITIONING — INC. —

Service Levels

System Rejuvenation

\$189

- Infrared Camera Inspection of the Heat Exchanger
- Test Blower Motor & Amp Draw
- Check A/C for Level
- Test Motor Start Capacitor
- Inspect A/C Lines for Restrictions
- Inspect Blower Motor
- Inspect Evaporator Coil
- Test Compressor Start Capacitor
- Inspect Breaker & Disconnect
- Inspect Contactor
- Test Freon Levels
- Test Compressor Amp Draw
- Test All Wiring Connections
- Measure & Test Temperature Drop
- Check Filter
- Clean Condenser Coil
- Clean Blower Housing
- Inspect Coil for Mold Like Debris
- Inspect Condensate Drain
- Clean Debris Around Inside A/C
- Wax & Seal A/C Unit
- Efficiency Performance Analysis
- Lubricate Motor
- Level & Clean Thermostat
- Add Up to 2 lbs. Refrigerant
- Duct Inspection
- Test & Calibrate Freon Levels
- Clean Condensate Drain
- Test Static Pressure of System
- Clean Inside of Condenser Coil
- Check Carbon Monoxide Detector
- Duct Capacity Calculation
- Seal Plenum & Return Air Drop
- Vacuum & Clean Inside Return Drop
- Inspect Indoor Air Quality Products

Tune-Up

\$129

- Infrared Camera Inspection of the Heat Exchanger
- Test Blower Motor & Amp Draw
- Check A/C for Level
- Test Motor Start Capacitor
- Inspect A/C Lines for Restrictions
- Inspect Blower Motor
- Inspect Evaporator Coil
- Test Compressor Start Capacitor
- Inspect Breaker & Disconnect
- Inspect Contactor
- Test Freon Levels
- Test Compressor Amp Draw
- Test All Wiring Connections
- Measure & Test Temperature Drop
- Check Filter
- Clean Condenser Coil
- Clean Blower Housing
- Inspect Coil for Mold Like Debris
- Inspect Condensate Drain
- Clean Debris Around Inside A/C
- Wax & Seal A/C Unit
- Efficiency Performance Analysis
- Lubricate Motor
- Level & Clean Thermostat

Safety Inspection

\$99

- Infrared Camera Inspection of the Heat Exchanger
- Test Blower Motor & Amp Draw
- Check A/C for Level
- Test Motor Start Capacitor
- Inspect A/C Lines for Restrictions
- Inspect Blower Motor
- Inspect Evaporator Coil
- Test Compressor Start Capacitor
- Inspect Breaker & Disconnect
- Inspect Contactor
- Test Freon Levels
